

Your Clients, Better Prepared

A private workspace that helps your clients organize finances, documents, and settlement proposals before they walk into your office.

The Problem

Family law professionals spend the first several billable hours getting clients organized. Clients arrive with incomplete financials, missing documents, and no clear picture of their situation. This wastes your time and their money.

Why Recommend Divorce Navigator

Save 2-3 Hours Per Client

Clients arrive with financials organized, documents uploaded, and questions prepared.

Branded Referral Page

Your firm name and welcome message on a dedicated signup page at app.divorce-plan.com/refer/your-firm.

Secure Data Room

Clients share an encrypted data room with you - financials, documents, and case details in one link.

Better Outcomes

Settlement modeling helps clients understand outcomes before mediation, leading to more productive sessions.

How It Works

- 1 We create your branded referral page (free, within 24 hours).
- 2 You share the link with clients via email, website, or in consultations.
- 3 Clients sign up and organize their financial picture in a private workspace.
- 4 Clients share a data room or bring a printed mediation packet to your office.

What Your Clients Get

- | | |
|---------------------------------|--------------------------------------|
| + Full financial fact intake | + Jurisdiction guide (all 50 states) |
| + Secure document vault | + Attorney data room sharing |
| + Settlement scenario modeling | + Mediation preparation packet |
| + Alimony step-down builder | + Consultation prep with templates |
| + Process timeline & checklists | + AI research assistant (optional) |

Free tier covers the essentials. Premium (\$179 one-time, less than one hour of attorney time) unlocks everything.
